## World Mapping Challenge – Part 1

### Instructions

Draw the following features on a world map.

1. The Equator
2. The Tropic of Cancer and Capricorn
3. The Arctic and Antarctic Circles
4. The Prime Meridian
5. Labels for Northern and Southern Hemisphere
6. The International Date Line
7. All continent boundaries and label them using their names
8. Name and locate a country, state/territory, city and town in each continent.

Ensure that all details are readable on your map\*. You may like to use sharp coloured pencils to help include all your details.

\*Please use the world map worksheet page.

## World Mapping Challenge - Part 2

### Instructions

Answer the following questions about features on the world map.

1. List all the countries that are on the Equator.

---

---

---

2. List five countries in the Northern Hemisphere.

---

---

3. List five countries in the Southern Hemisphere.

---

---

4. List three countries that are on the Tropic of Cancer.

---

5. List three countries that are on the Tropic of Capricorn.

---

6. Name a continent in the Arctic Circle.

---

7. Name a continent in the Antarctic Circle.

---

8. Name all seven continents, then below them, write two countries within that continent. One continent does not contain countries. Instead, write two nations that claim land there.

9. What is the first country to start the day from the International Date Line?

---

10. List three countries that are on the Prime Meridian.

---

---

11. Give an example of three states and which country they are within.

---

---

---

12. Cut out the place names and glue them onto the table showing that they are towns or cities. You will need resources to help you research.

Towns	Cities

Fuji Japan	Queenstown New Zealand	Bruges Belgium
Taltal Chile	Nome Alaska	Tandrano Madagascar
Margaret River Australia	Kumasi Ghana	Westport Ireland
Jutaí Brazil	Abu Minqar Egypt	Hamburg Germany
Reykjavík Iceland	Yosemite Valley California	Jalingo Nigeria
